# IUPAP policy

As an IUPAP-supported conference, ACHEP23 implemented the IUPAP Policy on Free Circulation of Scientists:

- The principle of the Universality of Science is fundamental to scientific progress. This principle embodies freedom of movement, association, expression and communication for scientists, as well as equitable access to data, information and research materials.
- In pursuing its objectives with respect to the rights and responsibilities of scientists, the International Union of Pure and Applied Physics (IUPAP) actively upholds this principle, and, in so doing, opposes any discrimination on the basis of such factors as ethnic origin, religion, citizenship, language, political stance, gender, or age.
- IUPAP insists that women are represented as organizers, speakers, and attendees of IUPAP sponsored meetings. The presence of women on the local organizing committee, the international advisory committee and as plenary and invited speakers is a condition for IUPAP sponsorship.

Women are the future

# ACHEP series - every 2 years
