

The 6th International Climate Change Conference (CI2C) 2025

Essaouira, Morocco

Friday, October 17, 2025

Session 8 : Territorial Resilience and Nature-based Solutions (11:00 AM - 1:00 PM)

time	[id] title	presenter
11:00 AM	[51] Climate Change Adaptation in Semi-Arid Agriculture: GIS-Based Control of Irrigation in Drip-Converted Areas	BELABHIR, Afaf
11:10 AM	[103] Exploring the resilience of sustainable SMEs during time of crisis	AZZAMOUK, Asma
11:20 AM	[17] Pollination and resilience of Moroccan apple trees under environmental change : contribution to the study of pollination requirements, solitary bee diversity and relative abundance, and pollination dependence in the Al Haouz orchards.	Ms BENKHALIFA, Houda
11:30 AM	[93] Eco-Friendly Phosphorylation of Alginate for Improved Functional and Flame-Retardant Properties	AZEROUAL, Sana
11:40 AM	[181] Climate Change Impacts on Geoheritage Conservation and Geotourism Adaptation	CHARDI, Safaa
11:50 AM	[133] Toward Circular Agriculture: Enhancing Tomato Productivity Using Treated Wastewater and Biochar-Amended Soils	RYAH, Houria
12:00 PM	[40] Optimization of Wastewater Treatment Using High-Rate Algal Ponds	ZAHIR, Chaima
12:10 PM	[143] Impact of Secondary Treated Wastewater on Growth and Physiological Responses of Rocket (<i>Eruca sativa</i>) in Hydroponics	OUKHEY, Firouze
12:20 PM	[176] Territories resilience and nature-based solutions : integrating ecosystem approaches into climate adaptation	ALAMI HARRAK, Soukaina
