

Session Program

Oct 16 - 18, 2025

**The 6th International Climate Change
Conference (CI2C) 2025 Essaouira, Morocco**

***Session 10 : Architecture, Urbanism, and
Sustainable Territories***

Fri, October 17

2:30 PM

Session 10 : Architecture, Urbanism, and Sustainable Territories

Session | Location: Dar Souiri

2:30 - 2:40 PM

Urban Design Strategies for climate Resilience: A Simulation-Based study of Morphology and Vegetation Effects on Microclimate in Moroccan Cities

Speaker

Khaoula BENAOMAR

2:40 - 2:50 PM

Approaches for Sustainable Urban Design in Semi-Arid Climates : Forecasting Energy Consumption in Smart Buildings

Speaker

Nouhaila IGUERD

2:50 - 3:00 PM

Characterization of agricultural waste and clayey soils in the Zagora region (Morocco) for low-cost compressed earth bricks (CEB) construction.

Speaker

Akhdouje ABDESLAM

3:00 - 3:10 PM

Enhancing urban climate resilience through transformation of underused building assets in mixed-use development

Speaker

Prof. Moshe SCHWARTZ

3:10 - 3:20 PM

Urban surface sealing impacts on tree growth, physiology, and ecosystem services in central European cities

Speaker

Dr Alaa AMER

3:20 - 3:30 PM

Land Snails as Bioindicators of Trace Metal Pollution and Public Health Risk: A Case Study from Marrakech Region (Morocco)

Speaker

Hajar SEBBAN

4:00 PM
