

The 6th International Climate Change Conference (CI2C) 2025

Essaouira, Morocco

Saturday, October 18, 2025

Poster session (8:30 AM - 1:30 PM)

time	[id] title	presenter
9:00 AM	[130] Genome Editing and Agricultural Transformation in Morocco Amid Climate Change: Regulatory Constraints and Strategic Prospects	Mr BRITEL, Ilyass
9:00 AM	[221] The Water-Climate Nexus in Moroccan Law: Evaluating the Effectiveness of Adaptation Policy	Dr EL BAHJA, Imane
9:00 AM	[210] Impact of Ochratoxin A on Neurobehavioral Development and Organ Health	Mrs SAAD, Fatima Ez-Zahraa
9:00 AM	[78] Climate Change and Scorpion Envenomation: Assessing the Impact of Rising Temperatures and Variable Weather on Global Scorpionism Risk	EL JOUD, Youssef
9:00 AM	[95] Impact de l'envenimation scorpionique sur le stress oxydant	EL HOUSSEINI, Adil
9:00 AM	[126] Strategic Synergy Between Yellow and Green Biotechnologies in Addressing Climate Change: Advancing a Sustainable and Resilient Agroecosystem Transition	Mr BRITEL, Ilyass
9:00 AM	[96] Assessment of Hepatic Fibrosis and Trace Elements in Geophagic Individuals	DIFFAA, Azeddine
9:00 AM	[98] Trace elements as a problem of health in Pica disease: focus on geophagy	DIFFAA, Azeddine
9:00 AM	[147] Thermosolutal Convection Driven by Soret Effect in a Complex Geometry Filled with a Suspension of Nano-Encapsulated Phase Change Materials	FOURA, Layla
9:00 AM	[102] Moroccan Forests and Carbon Sequestration: Status and Perspectives for Climate Change Mitigation	Mr NACIRI, Youness
9:00 AM	[106] Ecological role of the invasive Agarophyton vermiculophyllum compared to native seagrasses in structuring epiphytic macrofaunal assemblages in a Moroccan coastal lagoon	Ms NADRI, Amal
9:00 AM	[145] Performance Prediction of Photovoltaic-Thermal (PVT) Collectors Using Artificial Neural Networks: A Case Study in Chichaoua, Morocco	BOU FKRI, Malika
9:00 AM	[229] Cultivation and mycelium production from spore suspension of desert truffles: prospective use as inoculum for host plants in arid zones.	Dr KADDOURI, Hicham
9:00 AM	[141] Contribution to the valorization of Moroccan monofloral honeys: Protective capacity against cyclophosphamide-induced genotoxicity and cytotoxicity in mice.	Dr LAKHMILI, Houssam
9:00 AM	[120] Aloe vera (Aloe barbadensis Miller): Botanical Features and Chemical Composition of Its Gel	Ms CHOUKRI, Asmaa
9:00 AM	[115] Les expositions environnementales et les mécanismes de vieillissement : état des connaissances et perspectives de recherche	Mrs ELHADHAD, Hayat
9:00 AM	[222] Plastic Waste Valorization in Construction Materials: Challenges, Opportunities, and Perspectives for an Ecological Transition in Morocco	Dr SKIRI, Hajar

9:00 AM	[23] Social behaviour deficits with anxiety in a rat model of chronic hepatic encephalopathy: Neurobehavioral assessment and biochemical analysis	KHANOUCI, Manal
9:00 AM	[162] Physicochemical and Biochemical Characterization of Wild Snail Mucus (Otala sp.): Exploring Its Bioactive Potential for Cosmetic and Health Applications	ESSAOUD, Ouidiane
9:00 AM	[156] Le câprier entre résilience biologique et opportunités territoriales : une revue croisée des enjeux à Safi (Maroc)	LAAJIL, Rachida
